Re: ISO-17712:2013 Certificate of Conformance for Cable Seals (MS-C3.5 and MS-C5.0 series)

NovaVision certifies that our high security cable seals are in compliance with ISO 17712:2013.

Applicable product codes: MS-C3.5 and MS-C5.0

A) We have independent lab test certificates and reports to verify the construction and structural aspects of the standard:

- 3.5mm Cable Certificate Report: K0528170-T01 issued by Metal Industries Research & Development Centre on June 21, 2021

- 5.0mm Cable Certificate Report: 110TD0611-169-C01 issued by Metal Industries Research & Development Centre on June 11, 2021

B. We certify that our MS-C3.5 and MS-C5.0 cable seals received a PASS on the structural testing on all criteria and are rated as a High Security Seal:

B1. Tensile Test (Paragraph 5.2): High Security Rating

B2. Shear Test (Paragraph 5.3): High Security Rating

B3. Bending Test (Paragraph 5.4): High Security Rating

B4. Impact Test at Room Temperature (Paragraph 5.5): High Security Rating

B5. Impact Test at Reduced Temperature (Paragraph 5.5): High Security Rating

C. We certify that our MS-C3.5 and MS-C5.0 cable seals are compliant with ISO 17712:2013 Clause 6 for tamper evidence. NovaVision is certified for ISO 9001 for Security Tape, Labels and Seals. Our ISO documentation includes:

- our product designs including features to mitigate tampering
- periodic tamper evident testing to confirm performance
- tamper evident testing is documented and part of our ISO audit procedures

Sincerely,

Peter T. Carella  
Product Engineer, NovaVision
