Date: April 1, 2026

Subject: ISO 14298, NASPO Certifications

To: Our customers and other interested parties

NASPO International and ISO14298 is the framework for the management of security printing processes. This standard specifies the requirements for a security printing management system. NovaVision has held certifications for ISO 14298 and NASPO for nearly ten years and initially did this to prepare the facility and company to expand our presence in the high-security government workspace. We have continued making investments in our team, equipment and processes and maintain that this is a solid foundation and way to run the business.

We are going to allow our certification to lapse, but will continue running the business in a "compliant" state.

We expect your experience to be the same as it always has. If you have any questions or concerns, feel free to reach out to us.

Sincerely,

A handwritten signature in black ink that reads "William R. Schoenherr". The signature is fluid and cursive, with a long horizontal stroke at the end.

William Schoenherr
President, NovaVision, LLC
