

CERTIFIED CARGO SCREENING FACILITY (CCSF)

The USA's federal Transportation Security Administration (TSA) is responsible for ensuring the security of all modes of transportation, including cargo placed aboard airplanes. TSA mandates special security tape, stickers, and seals.

If you are a registered CCSF facility, please call for special pricing discounts on tamper evident tape, bolt seals, cable seals, and plastic seals.

CCSF Cargo Stickers

NovaVision offers [CCSF stickers](#) that can be customized with your unique CCSF registration number.

The TSA does not require tamper evidence for the cargo stickers. However, we offer a tamper evident version as an option for added security.

Tamper Evident Tape

[Security tape](#) provides an anti-tamper seal for shipping cartons, pallets, letters, bags and many other containers. After applying the security tape, removal will cause the tape to tamper, leaving words (OPENED, VOID, etc) on both the affixed surface and in the security tape.

CCSF Hang Tags & Labels

[CCSF tags and labels](#) are specified by the TSA for approved Certified Cargo Screening Facilities (CCSF).

The CCSF program was instituted to improve the speed and efficiency of the pivotal security aspect of the global supply chain. CCSF is an extension of the TSA's Certified Cargo Screening Program (CCSP), which was created to screen all cargo passing through airports.

Quantity discounts are available, please visit our website or speak to a NovaVision representative for more information.

Plastic Security Bands

NovaVision offers various [plastic seals](#) which are used to mechanically secure a variety of containers. Typical applications include truck doors, trailer doors, railcar doors, totes, valves, coin bags, inner drum bags, crime scene evidence storage bags, and any container with a hasp or loops.

We offer adjustable and non-adjustable plastic seals.
